VICTIM:

1. U.S. GOVERNMENT; [GATHERING, TRANSMITTING OR LOSING DEFENSE INFORMATION (18 USC § 793(E))], [THEFT OF PUBLIC MONEY, PROPERTY OR RECORDS (18 USC § 641)], [AIDING THE ENEMY (ARTICLE 104, UCMJ)], [EXCEEDING AUTHORIZED ACCESS TO A U.S. GOVERNMENT COMPUTER (18 USC § 1030(A)(1))], [FAILURE TO OBEY ORDER OR REGULATION (ARTICLE 92, UCMJ)]

INVESTIGATIVE SUMMARY:

This investigation was initiated upon receipt of information by this office on 25 May 10, that a Soldier stationed in Iraq claimed via online chat sessions that he had disclosed classified U.S. Government information to the operator(s) of the website "WikiLeaks" (http://www.wikileaks.org), which the operator(s) subsequently posted on the publicly available WikiLeaks website. The Soldier was subsequently identified as PFC MANNING, who served as an Intelligence Analyst and held a Top Secret security clearance at the time of the incident.

A joint investigation with Federal Bureau of Investigation (FBI) and the U.S. Department of State Diplomatic Security Service (DSS) determined probable cause to believe that between 1 Nov 09 and 27 May 10, PFC MANNING, while assigned to FOB Hammer, Iraq, and while on leave from Iraq in the United States, committed the offenses of Aiding the Enemy; Failure to Obey Order or Regulation; Gathering, Transmitting or Losing Defense Information; Theft of Public Money, Property or Records; and Exceeding Authorized Access to a U.S. Government Computer, when he exceeded his authorized access to various classified databases and network file systems, the property of various U.S. Government departments and agencies; knowingly gathered documents, communications, videos, and other records PFC MANNING knew or believed to be classified information at the Secret and Confidential level; and then without authorization, wrongfully disclosed this classified information to the operator(s) of "WikiLeaks" - knowing this classified information would be released to the public and accessible to enemies with which the U.S. Government was engaged in armed conflict.

The specific classified systems and information PFC MANNING accessed included the: Net-Centric Diplomacy (NCD) database, property of the U.S. State Department, wherein PFC MANNING gathered and wrongfully disclosed approximately 251,287 U.S. State Department Diplomatic Cables, many of these cables classified Secret and Confidential; the Combined Information Data Network Exchange (CIDNE) database, property of the Department of Defense, wherein PFC MANNING gathered and wrongfully disclosed approximately 391,883 documents related to combat operations in Iraq, and approximately 91,911 documents related to combat operations in Afghanistan, many of these documents classified Secret and Confidential; a video depicting a July 2007 combat operation in Baghdad, Iraq, and an encrypted video depicting a May 2009 combat operation in Gharani, Afghanistan, property of the U.S. Central Command; approximately 779 records pertaining to detainees housed at the U.S. Naval Station Guantanamo Bay, Cuba, classified at the Secret level, property of U.S. Southern Command (SOUTHCOM); a classified document from the U.S. Army Intelligence and Security Command (INSCOM), classified at the Secret level, property of the U.S. Army; as well as other miscellaneous documents which were classified and property of a U.S. Intelligence Agency. There was further probable cause to believe PFC MANNING attempted to exceed his authorized access to U.S. Central Command email systems in order to gather the Global Address List (GAL), containing the names and other personal information of U.S. service members, contractors, and civilians assigned in Iraq, with the intent of disclosing this information to the operator(s) of the WikiLeaks website.

SSG (b)(6)(b)(7)(C) further stated this office should request to view the PS Form 297-A, Customs Declaration and Dispatch notes, which identified the individual mailing the package, the packages' contents, and the recipients address. SSG (b)(6)(b)(7)(C) stated the certified mail subs would also be attached if the package was mailed insured, registered, or certified. SSG (b)(6)(b)(7)(C) explained how all packages were inspected

and search for HAZMAT and other items not shippable by USPS standards. He stated the mail clerks would inspect each package; however, only looked for items prohibited for mail.

About 1600, 28 May 10, SA (b)(6)(b)(7)(C) interviewed Mr. (b)(6)(b)(7)(C) Manager, Netgate Internet Services, FOB Hammer, who related there was no way to track how much data a customer has uploaded or downloaded. Mr. (b)(6)(b)(7)(C) stated that customers pay monthly and are not restricted to their amount of internet usage.

About 1610, 28 May 10, SA (b)(6)(b)(7)(C) briefed CPT (b)(6)(b)(7)(C) Magistrate, on the current facts and circumstances regarding this office's desire to search the Post Office's Customs Forms. CPT (b)(6)(b)(7)(C) provided Search Authorization for the search of all PS Form 297-A's within the last 60 days.

About 1625, 28 May 10, SA (b)(6)(b)(7)(C) submitted the Search and Seizure Authorization to SSG (b)(6)(b)(7)(C)

Between 1630-1750, 28 May 10, SA (b)(6)(b)(7)(C), SA (b)(6)(b)(7)(C) and SA (b)(6)(b)(7)(C) executed the Search Authorization to search the PS Form 297-A's forms maintained at FOB Hammer Post Office, which met with negative results. The custom forms search only extended from 30 Apr-28 May 10 and all forms were carbon copies, which were difficult to read and many were completely illegible. SSG (b)(6)(b)(7)(C) stated they had just burned a few stacks yesterday and were only required to keep the forms for 30 days.

About 2112, 28 May 10, SA (b)(6)(b)(7)(C) interviewed SPC (b)(6)(b)(7)(C) who provided a sworn statement detailing his living experience with PFC MANNING as his roommate and PFC MANNING's day to day living patterns.

About 2141, 28 May 10, SA (b)(6)(b)(7)(C) interviewed and obtained a statement from SPC (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) Paralegal, 2/10th MTN DIV, who related PFC MANNING had previously used her SIPR scanner to scan unknown documents and send them to her computer. PFC MANNING then requested SPC (b)(6)(b)(7)(C) print the documents and erase the scans. SPC (b)(6)(b)(7)(C) further stated PFC MANNING had related he was instructed to scan the documents by SSG (b)(6)(b)(7)(C)

About 2230, 28 May 10, SA (b)(6)(b)(7)(C) interviewed and obtained a statement from SSG (b)(6)(b)(7)(C) wherein he related he never instructed PFC MANNING to use the SIPR scanner. Further, SSG (b)(6)(b)(7)(C) stated while PFC MANNING was assigned to the Supply Section he did not conduct any activity in which he would require use of the SIPR scanner.

About 2235, 28 May 10, SA (b)(6)(b)(7)(C) obtained a Commander's Authorization to Search from CPT (b)(6)(b)(7)(C) to collect SPC (b)(6)(b)(7)(C) hard drive.

About 2258, 28 May 10, SA (b)(6)(b)(7)(C) interviewed PFC (b)(6)(b)(7)(C) who provided a sworn statement, wherein he stated he once had a conversation with PFC MANNING pertaining to passwords and hash marks, but there was no discussion about hacking during any of their conversations.

About 2310, 28 May 10, SA (b)(6)(b)(7)(C) coordinated with SSG (b)(6)(b)(7)(C) who arranged with the S6 to have the original hard drive from SPC (b)(6)(b)(7)(C) SIPR computer extracted. SA (b)(6)(b)(7)(C) collected the hard drive from SSG (b)(6)(b)(7)(C) as evidence on an EPCD, DN 0582-10.

About 1700, 29 May 10, SA (b)(6)(b)(7)(C) was contacted by CPT (b)(6)(b)(7)(C) who related the night prior PFC MANNING allegedly used SPC (b)(6)(b)(7)(C) computer to check his emails.

About 1750, 29 May 10, SA (b)(6)(b)(7)(C) interviewed SPC (b)(6)(b)(7)(C) Public Affairs Office, HHC, 2/10th MTN DIV, who stated during the day before PFC MANNING requested her to stop by his room at 2130 that evening. When she did she saw PFC MANNING was being guarded by two Soldiers from the unit's Commander's Security Team (CST): PFC (b)(6)(b)(7)(C) and PFC (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) SPC (b)(6)(b)(7)(C) related she assumed PFC MANNING was been guarded because of his previous Article 15. SPC (b)(6)(b)(7)(C) stated she entered the room wherein PFC MANNING provided her with a small piece of paper containing his Gmail email account user names and passwords and yahoo stocks information in order for her to check his Gmail inbox and the current price of his stocks. SPC (b)(6)(b)(7)(C) stated she then returned to her room where she used her personal computer to check his email and stocks. SPC (b)(6)(b)(7)(C) related she wrote down the current price of his stocks and the fact he had five new messages: three from an (b)(6)(b)(7)(C) (NFI) and two others which she was not able to remember. SPC (b)(6)(b)(7)(C) stated she then returned to PFC MANNING's room and provided him with the paper. SPC (b)(6)(b)(7)(C) tated at no time did she send any emails for PFC MANNING, delete any emails from his account, nor did he use her computer.

About 1830, 29 May 10, SA (b)(6)(b)(7)(C) interviewed PFC (b)(6)(b)(7)(C) who stated he and SPC (b)(6)(b)(7)(C) where assigned to guard PFC MANNING the evening of 28 May 10. PFC (b)(6)(b)(7)(C) stated approximately 2130, SPC (b)(6)(b)(7)(C) entered the room wherein PFC MANNING passed her a piece of paper the size of an index card containing his email username and password. PFC (b)(6)(b)(7)(C) tated a few minutes later SPC (b)(6)(b)(7)(C) eturned to the room and passed the piece of paper back to PFC MANNING with a few more sentences written on it. PFC (b)(6)(b)(7)(C) stated PFC MANNING was never allowed to access a computer; although, he never actually saw what was written on the paper.

AFFIDAVIT SUPPORTING REQUEST FOR AUTHORIZATION TO SEARCH AND SEIZE OR APPREHEND

For use of this form, see AR 27-10, the proponent agency is TJAG.

I, Special Agent, (b)(6)(b)(7)(C) of the 25th Military Police Detachment (CID), Central Baghdad CID Office, Camp Liberty, Iraq, been first duly sworn, hereby depose and state as follows:

1. Introduction and Background:

a. I make this affidavit in support of an application for authorization to search and seize the personal and U.S. Government owned computers and storage devices owned and used by PVT Bradley E. Manning, and to search the hard drives and other assorted media owned and used by PVT Manning. As set forth, herein, there is probable cause to believe that inside the aforementioned digital media there exists communications that will establish PVT Manning committed the offense of Espionage.

b. I am a Special Agent with the 25th Military Police Detachment (CID) of the U.S. Army Criminal Investigation Command, located on Camp Liberty, Iraq, and have been employed as a Special Agent for approximately 5 years. In addition to my training as a criminal investigator, I have attended various seminars, schools, and training on criminal investigation techniques and procedure.

c. I have attended seminars and training programs on computer and telecommunications investigations instructed by the Military Police School, Fort Leonard Wood, MO. In addition to the training I have received, I have participated in numerous investigations involving the use of computers in criminal activity. As a Special Agent of the U.S. Army Criminal Investigation Command, I am authorized to investigate crimes involving violations of the Uniform Code of Military Justice and other applicable federal and state laws where there is an Army interest.

2. Search Procedure - Methods To Be Used To Search Computers

a. Based upon my training and experience, I am familiar with the means by which individuals use computers and information networks such as the Internet to commit various criminal offenses. Because this affidavit is being submitted for the limited purpose of establishing probable cause, I have not included every detail of every aspect of the investigation. Rather, I have set forth only those facts that I believe are necessary to establish probable cause to search the hard drives and storable devices. In addition, the information contained in this affidavit is based upon conversations with other law enforcement officers, my review of various documents and records, and my personal observation and knowledge. Unless specifically indicated, all conversations and statements described in this affidavit are related in substance and in part only.

b. Based on my training, my experience, and through conversations with other law enforcement agents, I know that searching for computerized information for evidence or instrumentalities of a crime commonly requires agents to seize most or all of a computer system's input/output peripheral devices, related software documentation, and data security devices (including passwords) so that a qualified computer expert can accurately conduct the search by retrieving the system's data in a laboratory or other controlled environment. This is true for the following reasons:

(1) The volume of evidence. Computer storage devices can store the equivalent of thousands of pages of information. In addition, a user may seek to conceal evidence of criminal activity by storing it in random order with deceptive file names. Searching authorities are thus required to examine all the stored data to determine which particular files are evidence or instrumentalities of criminal activity. This sorting process can take weeks or months, depending upon the volume of data stored, and it would be impractical to attempt this kind of data analysis "on-site."

(2) Technical requirements. Analyzing computer systems—to include those found within pagers, wireless phones, electronic organizers, data watches and desktop computers—for criminal evidence is a highly technical process requiring expert skill and a properly controlled environment. The vast array of computer hardware and software available requires even computer experts to specialize in some systems and applications. Thus, it is difficult to know prior to the search which expert possesses sufficient specialized skills to best analyze the system and its data. No matter which system is used, however, data analysis protocols are exacting scientific procedures, designed to protect the integrity of the evidence and to recover even "hidden," erased, compressed, password-protected, or encrypted files. Since computer evidence is extremely vulnerable to tampering or destruction (both from external sources or from destructive codes embedded in the system as a "booby trap"), a controlled environment is essential to its complete and accurate analysis.

c. Searching the computer system for the evidence described in the conclusion may require a range of data analysis techniques. In some cases, it is possible for agents to conduct carefully targeted searches that can locate evidence without requiring a time-consuming manual search through unrelated materials that may be commingled with criminal evidence. For example, agents may be able to execute a "keyword" search that searches through the files stored in a computer for special words that are likely to appear only in the materials covered by a warrant. Similarly, agents may be able to locate the materials covered in the warrant by looking for particular directory or file names. In other cases, however, such techniques may not yield the evidence described in the warrant. Criminals can mislabel or hide files and directories; encode communications to avoid using key words; attempt to delete files to evade detection; or take other steps designed to frustrate law enforcement searches for information. These steps may require agents to conduct more extensive searches, such as scanning areas of the disk not allocated to listed files, or opening every file and scanning its contents briefly to determine whether it falls within the scope of the warrant. In light of these difficulties, your affiant requests permission to use whatever data analysis techniques appear necessary to locate and retrieve the evidence described in conclusion.

d. If, after inspecting the system software, and pertinent computer related documentation, it becomes apparent that these items are no longer necessary to retrieve and preserve the evidence, such materials and/or equipment will be returned within a reasonable time.

3. Background Regarding Computers

a. The term "computer" as used herein is defined as set forth in 18 U.S.C. § 1030(e)(1), and includes any electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical, arithmetic, or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device.

b. I have had both training and experience in the investigation of computer-related crimes. Based on my training, experience and knowledge, I know the following:

(1) The Internet is a worldwide network of computer systems operated by governmental entities, corporations, other commercial entities and universities. To access the Internet, an individual computer user must subscribe to an Internet Service Provider, or ISP, which operates a host computer system with direct access to the Internet. In the work environment, many governmental entities, corporations and universities provided employees and students with access to the Internet.

(2) A device known as a modem allows any computer to communicate with another computer through the use of telephone lines or cable. The modem may be internal or external to the computer.

(3) By connection to the Internet, either through a commercial ISP or through access provided by a private service provider such as the government, an individual with a computer can make electronic contact with millions of computers around the world.

c. Based on training and through my personal use of computers, I have knowledge of the method by which e-mail and other files are transmitted over telephone lines or cable between computers. Based on my training and knowledge I know the following:

(1) With the modem, a computer user can transport a computer file to his own computer, so that the computer file is stored in his computer. The process of transporting a file to one's own computer from another is called "downloading."

(2) The user can then view the file on his/her computer screen (monitor), and can "save" or retain the file on his/her computer for an indefinite time period.

(3) In addition to permanently storing the file on the computer, the user may print the file.

(4) The original file that was downloaded is also maintained in the originating computer.

(5) With the modem, a computer user can send a file from the computer to another individual on the Internet. This process of sending a file is called "uploading."

(6) The process of "uploading" is similar to the "downloading" process except the user is sending the computer file to others instead of retrieving the information from another computer. As with the process of "downloading," the original file is maintained on the originating computer.

(7) A user can also use an e-mail program to send files to another individual on the Internet. Most e-mail programs allow the user to attach files to the e-mail. The attached files may be documents or images. Again, the original file is maintained on the originating computer.

(8) Users commonly configure the e-mail program to save a copy of all "sent" e-mail. These copies will remain on the computer until they are deleted. If the e-mail program operates from a server on which the user's files are stored and retrieved as needed, the files are likely to be archived by the system administrator on a regular basis.

4. Probable Cause:

a. On 27 May 10, my office was notified by CW4 (b)(6)(b)(7)(C) Operations Officer, 11th Military Police Battalion (CID), that PVT Manning is believed to have unlawfully obtained and released

sensitive data including, but not limited to, TS-SCI and CABLE clearance documents onto the internet. PVT Manning is an Army Intelligence Analyst and was assigned to the S2 Section of the 2nd Brigade Combat Team, 10th Mountain Division, FOB Hammer, Baghdad, Iraq.

b. The following information was received from a non-government agency. Due to security concerns, the name of the agency will be withheld. The withholding of the name should in no way effect the reliability of the information they provided. This agency studies attack attribution, cause and effect relationships, and are involved in the development of tools, methodologies, and solutions to the intelligence problems of today and tomorrow. This agency provides OSINT and HUMINT from various projects both in the United States and abroad. In the past they have briefed the Office of the Secretary of Defense on issues related to Iran and provided the DoD operational manuals on the infrastructure of Iran. The information obtained from this agency is considered reliable.

(b) (7)(D) [redacted]

(b) (7)(D) [redacted]

(b) (7)(D) [redacted]

(b) (7)(D) [redacted] Later in the chat log, PVT Manning explained that the "crazy white haired dude = Julian Assage." Assage is known to be the director of the website WikiLeaks, a Swedish based organization that publishes anonymous submissions and leaks of sensitive documents from governments and other organizations and is dedicated to exposing government secrets.

f. Further into the chat logs, PVT Manning states (in regards to his relationship with Assange) "im a source, not quite a volunteer" "i mean, im a high profile source... and i've developed a relationship with assange... but i don't know much more than what he tells me, which is very little" "it took me four months to confirm that the person i was communicating with was in fact assange". PVT Manning went on to state (regarding a video Assange had in his possession) "they also caught wind that he had a video... of the Gharani airstrike in Afghanistan, which he has, but hasn't decrypted yet... the production team was actually working on the baghdad strike though, which was never really encrypted" "he's got the whole 15-6 for that incident... so it wont just be video with no context" "but its not nearly as damning... it was an awful incident, but nothing like the baghdad one" "the investigating officers left the material unprotected, sitting in a directory on a centcom.smil.mil" "server" but they did zip up the files, aes-256, with an excellent password... so afaik it hasn't been broken yet" "14+ chars..." "i can't believe what im telling you =L"

g. Based on the aforementioned chat logs, it can be surmised that PVT Manning illegally obtained a copy of the 15-6 report pertaining to the incident in Afghanistan and provided that for submission on WikiLeaks as well.

h. On 27 May 10, the Stars and Stripes newspaper printed an article written by Joby Warrick of The Washington Post. The article, titled "*A wiki for a world of secrets*", was written about the WikiLeaks website. The article stated "Some of the harshest criticism came after last month's Iraq video, which portrayed a U.S. Apache helicopter's assault on a group of Iraqis in Baghdad that killed several civilians, including two employees of the Reuters news service. An edited 17-minute version of the video – donated by an anonymous source and decrypted with the help of volunteers – was posted on the WikiLeaks site April 5 under the heading "collateral murder." Edited and unedited versions of the video have been viewed nearly 8 million times."

i. A review of all the information obtained to date established probable cause that PVT Manning was responsible, at a minimum, for the classified video of the aforementioned Baghdad helicopter attack being posted to the internet. It is further reasonable to believe,
(b) (7)(D) [redacted]

5. Conclusion

a. Based on the information above, I have probable cause to believe, and do believe, that electronic information exists on the hard drives and storage devices belonging to, and used by, PVT Manning. By this affidavit and application, I request that the magistrate issue a Search Authorization allowing agents to seize all computers and storage devices belonging to, and used by, PVT Manning whether they are personally owned or property of the U.S. Government assigned for PVT Manning's use during his duties. Further, I request that the magistrate issue a Search Authorization allowing agents to seize any electronic information pertaining to PVT Manning illegally collecting and disseminating classified information.

PART II - RIGHTS WARNING PROCEDURE

THE WARNING

1. WARNING - Inform the suspect/accused of:
   a. Your official position
   b. Nature of offense(s).
   c. The fact that he/she is a suspect/accused.
2. RIGHTS - Advise the suspect/accused of his/her rights as follows:
   "Before I ask you any questions, you must understand your rights."
   a. "You do not have to answer my questions or say anything."
   b. "Anything you say or do can be used as evidence against you in a criminal trial."
   c. (For personnel subject to the UCMJ) "You have the right to talk privately to a lawyer before, during, and after questioning and to have a lawyer present with you during questioning. This lawyer can be a civilian you arrange for at no expense to the Government or a military lawyer detailed for you at no expense to you, or both."

   - or -

   (*For civilians not subject to the UCMJ*) You have the right to talk privately to a lawyer before, during, and after questioning and to have a lawyer present with you during questioning. This lawyer can be one you arrange for at you own expense, or if you cannot afford a lawyer and want one, a lawyer will be appointed for you before any questioning begins."
   d. "If you are now willing to discuss the offense(s) under investigation, with or without a lawyer present, you have a right to stop answering questions at any time, or speak privately with a lawyer before answering further, even if you sign a waiver certificate."

Make certain the suspect/accused fully understands his/her rights.

THE WAIVER

"Do you understand your rights?"
(If the suspect/accused says "no," determine what is not understood, and if necessary repeat the appropriate rights advisement. If the suspect/accused says "yes," ask the following question.)

"Have you ever requested a lawyer after being read your rights?"
(If the suspect/accused says "yes," find out when and where. If the request was recent (i.e. fewer than 30 days ago), obtain legal advise on whether to continue the interrogation. If the suspect/accused says "no," or if the prior request was not recent, ask him/her the following question.)

"Do you want a lawyer at this time?"
(If the suspect/accused says "yes," stop the questioning until he/she has a lawyer. If the suspect/accused says "no," ask him/her the following question.)

"At this time, are you willing to discuss the offense(s) under investigation and make a statement without talking to a lawyer and without having a lawyer present with you?" (*If the suspect/accused says "no," stop the interview and have him/her read and sign the non-waiver section of the waiver certificate on the other side of this form. If the suspect/accused says "yes," have him/her read and sign the waiver section of the waiver certificate on the other side of this form.*)

SPECIAL INSTRUCTIONS

WHEN THE SUSPECT/ACCUSED REFUSES TO SIGN THE WAIVER CERTIFICATE: If the suspect/accused orally waives his/her rights but refuses to sign the waiver certificate, you may proceed with the questioning. Make notations on the waiver certificate to the effect that he/she has stated that he/she understands his/her rights, does not want a lawyer, wants to discuss the offense(s) under investigation, and refuses to sign the waiver certificate.

IF WAIVER CERTIFICATE CANNOT BE COMPLETED IMMEDIATELY:
In all cases the waiver certificate must be completed as soon as possible. Every effort should be made to complete the waiver certificate before any questioning begins. If the waiver certificate cannot be completed at once, as in the case of street interrogations, completion may be temporarily postponed. Notes should be kept on the circumstances.

PRIOR INCRIMINATING STATEMENTS:

1. If the suspect/accused has made spontaneous incriminating statements before being properly advised of his/her rights he/she should be told that such statements do not obligate him/her to answer further questions.
2. If the suspect/accused was questioned as such either without being advised of his/her rights or some question exists as to the propriety of the first statement, the accused must be so advised. The office of the serving Staff Judge Advocate should be contacted for assistance in drafting the proper rights advisal.

NOTE: If 1 or 2 applies, the fact that the suspect/accused was advised accordingly should be noted in the comment section on the waiver certificate and initialed by the suspect/accused.

WHEN SUSPECT/ACCUSED DISPLAYS INDECISION ON EXERCISING HIS OR HER RIGHTS DURING THE INTERROGATION PROCESS: If during the interrogation, the suspect displays indecision about requesting counsel (for example, "Maybe I should get a lawyer."), further questioning must cease immediately. At that point, you may question the suspect/accused only concerning whether he or she desires to waive counsel. The questioning may not be utilized to discourage a suspect/accused from exercising his/her rights. (For example, do not make such comments as "If you didn't do anything wrong, you shouldn't need an attorney.)"

2. The affiant further states that:

(b) (7)(D)

On 27 May 10, the affiant using the above mentioned information obtained a Search and Seizure Authorization for the search of PFC Manning's work terminals, and a search of his designated living area for any and all electronic media storage devices and classified materials. While executing the Search Authorization within PFC Manning's living area, a DVD bearing "Secret" marking and labeled "12 Jul 07 CZ Engagement Zone 30 GC" was discovered within a USPS box, which appeared to be packaged for shipment.

An interview of PFC Manning's roommate, SPC (b)(6)(b)(7)(C) MP, revealed although PFC Manning rarely mailed out boxes; he had mailed three packages last month, late Apr '10 time frame. SPC [redacted] related there was only one mailing service at FOB Hammer, which was the FOB Hammer Post Office.

It it a known fact that all mail being shipped out of country must be accompanied by a custom form, which is tracked and maintained by the Post Office for a certain time period.

3. In view of the foregoing, the affiant requests that an authorization be issued for a search of FOB Hammer Post Office *(the person) (and)*

(the quarters or billets) (and)

(the automobile) ( ) and (seizure) (apprehension) of Any PS Form 297-A, Customs Declaration *(items/persons searched for)*

and Dispatch Notes, relating to any shipped from PFC Manning within the last 60 days.

9. I, (b)(6)(b)(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH: That I am Bradley Mannings (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) I don't make it a point to have a conversation with him. Anytime we do speak, it's for small things like, "Turn off the light or turn your alarm off." I've noticed that he goes (b)(6)(b)(7)(C) to the room to get on his computer multiple times during the day. He also will be pretty upset anytime the internet is down. Another thing I have observed while being (b)(6)(b)(7)(C) is that a few times during the week, he either stays up late on the computer or either wakes up in the middle of the night to get on his computer. I never see what he is doing on his computer because it is turned away from me. I did notice that he had a hard drive, microphone, and some other kind of computer equipment that did not return with him when he came back from R&R.

Q- (b)(6)(b)(7)(C)

A- (b)(6)(b)(7)(C) (wrote the above narrative)

Q- When did Manning go on R&R?

A- I think it was about the 15th to the 20th of January.

Q- Does he ever talk to you about secret material?
A- No
Q- Have you ever noticed him bring home (back to the CHU) secret material?
A- No
Q- Does [redacted] have what type of electronic equipment does he keep in the room?
A- A computer, an external hard drive, his iPod, and a microphone. After he came back from his block leave in January, all I have seen was his computer.
Q- Has MANNING ever asked you to hold or hide something for him?
A- No
Q- Have you seen MANNING bring home (to the chu) CD's, DVD's etc?
A- I've see CD's laying around on his nightstand but I couldn't tell if they were blank or not. I've never viewed the discs to test them.
Q- How often does MANNING mail and recieve packages?
A- I only seen him take one group of packages to mail out [redacted] the end of April. He recieves packages very often. At least once a week he'll get a package.
Q- Do you know who sends [redacted] him the packages and what's in them?
A- I haven't looked at his packages to see the sender's name. His packages are mostly food items and he'll open them and leave them on the floor. Occasionally he'll get a package that he will leave closed and not open until [redacted] is at work or away from the room. I've never seen [redacted] the contents of packages like those.
Q- Do you know what was in the package he mailed out in April 10, and/or do you know who he mailed the package to?
A- I don't know what was in the packages he mailed out. He had three boxes, and when I questioned him if they were sent to him, [redacted] he told me he had some stuff to send home and locked them in his wall locker. I did not see who they were addressed to.
Q- Who is Manning friends with?
A- I don't think he has any friends out here. The only person I have seen him with, was other S-2 personnel when they are going to chow.
Q- Does he have any work friends?

(b)(6)(b)(7)(C) (b)(6)(b)(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

About one to two weeks ago, then SPC Manning came into the Paralegal office and said that he needed to use our Sipr Scanner. We told him to go ahead, we assumed - I believe but do not recall exactly who was in the Paralegal office with me, but I believe SFC (b)(6)(b)(7)(C) I remember telling SPC Manning to just hit SH and my name will pop up and I will either forward the email to whomever it needs to go to. SPC Manning stated for me just to print out the pages and he will take it to SFC (b)(6)(b)(7)(C) I said "OK". SPC (PFC) Manning came and stood over my desk I opened the email and attachment - hit print and SPC Manning took the pages off the printer. He the asked me to delete the email. SPC Manning stood over me as I deleted the email from my inbox and my deleted folder. - SPC Manning then left my office. About 30 minutes later (b)(6)(b)(7)(C)

Q. Who is SPC (b)(6)(b)(7)(C)

A. Absolutely No one, SPC Manning asked me to go ahead and just print it out.
Q. Why would SPC MANNING scan something through the SIPR scanner just to be printed out and not e-mailed?
A. I have no idea. I thought it was strange - for when most people use our Sipr printer, the want it emailed to someone. I thought maybe the black ink cartridges were low or people or offices were out of black toner again. I did remember thinking "Wow that was strange!"
Q. How many pages did SPC manning SCAN and print?
A. I believe just one page each time.
Q. Did you see the page?
A. Glanced at the pages, saw lines on the pages and typed information, but not enough glancing to make out what it said.
Q. Did you ~~did~~ delete the e-mail from your inbox and deleted items box?
A. YES.
Q. What was SPC MANNINGS DEMEANOR? DID HE SEEM NERVOUS?

I, (b)(6)(b)(7)(C) want to make the following statement under oath:
I briefly talked to SPC Manning last year. He seemed to be very interested in news relating to his job, he said he would brief current events at work. I believe SPC Manning to be a kind person, he does not drink but he does smoke cigarettes. He did not have a vehicle in Garrison, nor did I see him leave often. I have never been in his room nor have I spent time outside of work hours with him other then random occurrences in the hallway or parking lot. (b)(6)(b)(7)(C)
Q: SA (b)(6)(b)(7)(C)
A: PFC (b)(6)(b)(7)(C)
Q: Did you type the above narrative?
A: Yes. (b)(6)(b)(7)(C)
Q: How long did you talk to SPC MANNING last year?
A: It was more of random occurrences as he was at brigade level and I was company level. I talked to him at briefly at JRTC and on occasions. Our conversations were brief in nature. (b)(6)(b)(7)(C)
Q: What did those conversations consist of?
A: The one at JRTC was a group of S2 people joking around at 0300 in the morning. We were just trying to keep awake due to the hours. There was no meaningful content. I can't think of another time we talked for any particular length of time. At some point I found out he was from England, but I don't remember when I found this out. PFC MANNING use to be very happy, very hyper individual, but his leadership wore him down. He was upset that no one cared about the mission. The unit made it very difficult on PFC MANNING as it seemed to outcast him as though they were trying to get him out of the Army. (b)(6)(b)(7)(C)
Q: Did you see any examples of the unit trying to get rid of PFC MANNING?
A: I saw very little as I did not work in the same room as him. I have heard other people talking about how the unit was treating PFC MANNING. An example of what the unit did was placed another Soldier of equal rank in a leadership position in the shop when she was not qualified over PFC MANNING. (b)(6)(b)(7)(C)
Q: Did you have any direct conversations with PFC MANNING about these situations?
A: No. I might have talked to him at the DFAC about it, but I don't remember.
Q: Did you have a conversation with PFC MANNING pertaining to computer programming? (b)(6)(b)(7)(C)
A: He asked about setting up hash table software and making a security auditing business out of it. I told him that it was already publicly available enough to not be viable. (b)(6)(b)(7)(C)
Q: What does hash table software do?
A: When you make a password, it is run through a one-way hash algorithm to obfuscate your password so that no one can reuse it. A hash table is a table of passwords and their associated hashes. (b)(6)(b)(7)(C)
INITIALS OF PERSON MAKING STATEMENT: (b)(6)(b)(7)(C)

"Statement of (b)(6)(b)(7)(C) taken on, 28 May 10, at FOB Hammer Continued:"
Q: What would be the benefit of developing this type of software?
A: The software is already publically available. It allows you to type in a password and it will provide the appropriate hash. If you have the person's hash you can use the software, put the hash into the program, and if it's a hash in the table the program will come up with a password that matches the hash. (b)(6)(b)(7)(C)
Q: Other than trying to market the program did PFC MANNING state what he was planning to use the program for?
A: No. (b)(6)(b)(7)(C)
Q: Have you ever heard PFC MANNING talking about computer hacking?
A: No. (b)(6)(b)(7)(C)
Q: Other than the above conversation did PFC MANNING discuss any other computer endeavors or desires?
A: No. (b)(6)(b)(7)(C)
Q: Did PFC MANNING ever discuss the Apache shooting incident with you?
A: No. (b)(6)(b)(7)(C)
Q: Did he bring it to your attention when the news broke the WikiLeak story about the Apache shooting?
A: No. (b)(6)(b)(7)(C)
Q: Did PFC MANNING act any different either before or after the WikiLeak story broke on the news?
A: I do not have the information to answer the question. I have not talked to PFC MANNING in several months. (b)(6)(b)(7)(C)
Q: When was the last time you talked to PFC MANNING?
A: I don't remember I know it's been several months though. (b)(6)(b)(7)(C)
Q: Do you know if PFC MANNING has ever had an accidental disclosure?
A: No. (b)(6)(b)(7)(C)
Q: Have you ever seen PFC MANNING attempting to work in the SCIF by himself or before and after normal work hours?
A: No. There has to be two people in the room at all times. (b)(6)(b)(7)(C)
Q: Have you ever seen PFC MANNING placing a classified disk into the unclassified computer?
A: No. (b)(6)(b)(7)(C)
Q: Have you ever seen PFC MANNING with classified material outside the SCIF?
A: Yes, He was on trash and burn detail for the SCIF, where he was involved in the destruction of classified material. (b)(6)(b)(7)(C)
Q: Was PFC MANNING properly supervised during this detail?
A: I believe there were other people present and he was never left alone as far as I remember. (b)(6)(b)(7)(C)
Q: How difficult would it be for PFC MANNING to remove classified information from the SCIF?
A: As easy as removing classified material from any other SCIF. (b)(6)(b)(7)(C)
Q: Is there any additional information pertaining to this investigation that has not been discussed that needs to be addressed in this statement?
A: No. (b)(6)(b)(7)(C)

Q: Do you have anything else to add to this statement?

A: The network computer security in the housing units are very lax as anyone can get on the system by guessing the simple password. You can also access other peoples computers as individuals leave there sharing on. All users network passwords are readable by LN personnel and it would be easy to recover someone else's password by looking at the screen when inputting your own password. (b)(6)(b)(7)(C)

AFFIDAVIT SUPPORTING REASONABLE BELIEF PFC MANNING HAS CLASSIFIED INFORMATION, HAS SENT CLASSIFIED INFORMATION, AND WILL ATTEMPT TO SEND MORE CLASSIFIED INFORMATION

For use of this form, see AR 27-10, the proponent agency is TJAG.

I, Special Agent, (b)(6)(b)(7)(C) of the 25th Military Police Detachment (CID), Central Baghdad CID Office, Camp Liberty, Iraq, been first duly sworn, hereby depose and state as follows:

On 27 May 10, my office was notified by CW4 (b)(6)(b)(7)(C) Operations Officer, 11th Military Police Battalion (CID), that PFC Manning is believed to have unlawfully obtained and released sensitive data including, but not limited to, TS-SCI and CABLE clearance documents onto the internet. PFC Manning is an Army Intelligence Analyst and was assigned to the S2 Section of the 2nd Brigade Combat Team, 10th Mountain Division, FOB Hammer, Baghdad, Iraq.

The following information was received from a non-government agency. Due to security concerns, the name of the agency will be withheld. The withholding of the name should in no way effect the reliability of the information they provided. This agency studies attack attribution, cause and effect relationships, and are involved in the development of tools, methodologies, and solutions to the intelligence problems of today and tomorrow. This agency provides OSINT and HUMINT from various projects both in the United States and abroad. In the past they have briefed the Office of the Secretary of Defense on issues related to Iran and provided the DoD operational manuals on the infrastructure of Iran. The information obtained from this agency is considered reliable.

(b) (7)(D) [redacted]

(b) (7)(D) [redacted]

On 27 May 10, the Stars and Stripes newspaper printed an article written by Joby Warrick of The Washington Post. The article, titled "*A wiki for a world of secrets*", was written about the WikiLeaks website. The article stated "Some of the harshest criticism came after last month's Iraq video, which portrayed a U.S. Apache helicopter's assault on a group of Iraqis in Baghdad that killed several civilians, including two employees of the Reuters news service. An edited 17-minute version of the video – donated by an anonymous source and decrypted with the help of volunteers – was posted on the WikiLeaks site April 5 under the heading "collateral murder." Edited and unedited versions of the video have been viewed nearly 8 million times."

On 27 May 10, the affiant using the above mentioned information obtained a Search and Seizure Authorization for the search of PFC Manning's work terminals and a search of his designated living area for any and all electronic media storage equipment/devices. While executing the Search Authorization within PFC Manning's living area, a DVD bearing "Secret" markings and labeled "12 Jul 07 Chopper Reuters" was discovered within a USPS box, which appeared to be packaged for shipment.

An interview of PFC Manning's roommate, SPC (b)(6)(b)(7)(C) MP, revealed although PFC Manning rarely mailed out boxes; he had mailed three packages last month, late Apr 10 time frame.

Between 27-28 May 10, the affiant and a team of CID Special Agents conducted various canvass interviews, which revealed approximately three weeks ago (early May 10) PFC Manning received an Article 15 for assaulting a co-worker, wherein he was transferred from the S2 Section to the Unit Supply. While performing his duties with the supply section, PFC Manning would have no reason or means to access classified information. Although, approximately one week ago PFC Manning entered the office of SPC (b)(6)(b)(7)(C) Brigade Paralegal, and asked if he could scan Secret documents to her computer to be printed off, twice. PFC Manning informed SPC (b)(6)(b)(7)(C) this was a request from the Supply NCOIC. After scanning the documents to SPC (b)(6)(b)(7)(C) which she printed, PFC Manning requested she delete the emails from the computer files completely. When this office coordinated with the Supply NCOIC he related he never informed PFC Manning to scan Secret documents, and that no one in the supply section, including PFC Manning, would have any reason to review secret documents.

(b) (7)(D)

Based on the aforementioned 12 Jul 07 Chopper leak, it can be surmised that PFC Manning illegally obtained a copy of the 15-6 investigation pertaining to the incident in Afghanistan and provided that for submission on WikiLeaks as well.

A review of all the information obtained to date established probable cause that PFC Manning was responsible, at a minimum, for the classified video of the aforementioned Baghdad helicopter attack being posted to the internet. It is further reasonable to believe, based on the information PFC Manning had access to that he may submit additional classified information in the future if this incident is not immediately investigated and computer evidence seized and examined.

2. The affiant further states that:

(b) (7)(D)

On 27 May 10, the affiant using the above mentioned information obtained a Search and Seizure Authorization for the search of PFC Manning's work terminals, and a search of his designated living area for any and all electronic media storage devices and classified materials. While executing the Search Authorization within PFC Manning's living area, a DVD bearing "Secret" marking and labeled "12 Jul 07 CZ Engagement Zone 30 GC" was discovered within a USPS box, which appeared to be packaged for shipment.

An interview of PFC Manning's roommate, SPC (b)(6)(b)(7)(C) MP, revealed although PFC Manning rarely mailed out boxes; he had mailed three packages last month, late Apr '10 time frame. SPC (b)(6)(b)(7)(C) related there was only one mailing service at FOB Hammer, which was the FOB Hammer Post Office.

Further between 27-28 May 10, the affiant and a team of CID Special Agents conducted various canvass interviews of the 2nd Brigade Combat Team, 10th Mountain Division, FOB Hammer; which revealed approximately three weeks ago (early May '10) PFC Manning received an Article 15 for assaulting a co-worker. As a result, PFC Manning was transferred from the S2 Section to the Unit Supply Office. While performing his duties with the supply section PFC Manning would have no reason or means to access classified information. Although, approximately one week ago PFC Manning entered the office of SPC (b)(6)(b)(7)(C) Paralegal, on two separate occasions requesting if he could scan Secret documents to her computer to be printed off. PFC Manning informed SPC (b)(6)(b)(7)(C) this was at the request of the Supply NCOIC. After scanning the documents to SPC (b)(6)(b)(7)(C) computer, which she printed, PFC Manning requested her to completely delete the emails from her computer. When this office coordinated with the Supply NCOIC he related he never informed PFC Manning to scan Secret documents, and that no one in the supply section, including PFC Manning, would have any reason to view classified materials.

Based on the aforementioned 12 Jul 07, Apache leak, and the coincidental situation involving PFC Manning claiming he leaked it and the discovery of the Secret DVD in his designated living area, it can be surmised that PFC Manning illegally obtained a copy of the AR 15-6 Investigation pertaining to the incident in Afghanistan and provided that for submission to WikiLeaks as well. PFC Manning has been deployed to Iraq since Oct 09 it is reasonable to assume he has obtained an unknown quantity of classified materials. PFC Manning as also demonstrated that even after being removed from the S2 Section he has still obtained resources to classified documents and systems. It is further reasonable to believe, based on this information that PFC Manning has had access to, that he may have submitted or is currently storing additional classified information for future dissemination. For this investigation it is imperative for USACIDC to identify, seize, and examine all computers and digital storage media device PFC Manning has had access to.

AGENT'S INVESTIGATION REPORT

CID Regulation 195-1

ROI NUMBER 0004-10-CID187

DETAILS

AGENT's COMMENT: All times in this report are in Greenwich Mean Time (GMT) +1, with Daylight Savings Time (DST) in effect equaling GMT +2, the time zone for Mannheim, Germany. All Evidence / Property Custody Document (EPCD), Document Numbers (DN), referenced in this report were issued by the 11th Military Police (MP) Battalion (CID) consolidated evidence room located at the deployed battalion headquarters building, Camp Arifjan, Kuwait. Prior to the initiaion of all the below listed forensic imaging and preliminary forensic analysis, a detailed legal document review was conducted with the assistance of the Computer Crime Investigative Unit (CCIU) Legal Team, ensuring CCIU possessed the adequate consent to search and/or search authorization.

About 1655, 30 May 10, SA (b)(6)(b)(7)(C) unsealed a Hewlett Packard (HP) brand, laptop computer, serial number CNF8492K3S, property of SSG (b)(6)(b)(7)(C) Headquarters and Headquarters Company (HHC), 2nd Brigade Combat Team (BCT), 10th Mountain Division, forward deployed to Forward Operating Base (FOB) Hammer, Iraq, collected as evidence on EPCD, DN 0592-10, and verified the item with no documentary errors noted. SSG (b)(6)(b)(7)(C) previously informed CID special agents that he allowed PFC Bradley E. MANNING, HHC, 2nd BCT, to borrow this laptop on several occasions during May 2010. The laptop was checked for any data bearing devices or media, but none were found. It was noted that the Basic Input Output System (BIOS) reflected the correct time and date (GMT -5), with DST in effect equaling GMT -4. The hard disk drive (HDD), Samsung brand, serial number S1AKJDNQ816517, 320 gigabyte (GB) in size, was removed from the HP laptop for forensic imaging.

About 1755, 30 May 10, SA (b)(6)(b)(7)(C) collected the aforementioned Samsung HDD as evidence on EPCD, DN 0583-10.

Between approximately 1805, 30 May 10, and 0330, 31 May 10, SA (b)(6)(b)(7)(C) obtained an EnCase forensic image (.E01) of the aforementioned Samsung HDD. The resulting forensic image was verified to be an exact, bit-for-bit copy of the HDD through a comparison of Secure Hash Algorithm 1 (SHA1) values with no errors:

Acquisition Hash SHA1: 676162e5305d9a8688a44ebd89a7fdef3567db36
Verification Hash SHA1: 676162e5305d9a8688a44ebd89a7fdef3567db36

About 2135, 30 May 10, SA (b)(6)(b)(7)(C) unsealed a Macintosh brand, laptop computer, serial number MV9371AJ9935A, property of PFC MANNING, collected as evidence on EPCD, DN 0579-10, and verified the item with no documentary errors noted. The laptop was checked for any data bearing devices or media, but none were found. The HDD, Fujitsu brand, serial number K94DT9829WPY, 250 GB in size, was removed from the laptop for forensic imaging and subsequently reinstalled.

About 2150, 30 May 10, SA (b)(6)(b)(7)(C) attempted to boot the aforementioned Macintosh laptop with a Helix 3 Pro Live Disc, which was unsuccessful and resulted in the laptop booting from the internal Fujitsu brand HDD. This inadvertent HDD boot determined at least one user

account on the laptop was not password protected. The Macintosh laptop was then gracefully shut down.

AGENT's COMMENT: An initial attempt was made to obtain a forensic image of the aforementioned Macintosh brand laptop computer via Helix 3 Pro Live Disc, due to the often difficult/delicate task of removing HDDs from Macintosh products.

Between approximately 1240 and 2100, 31 May 10, SA (b)(6)(b)(7)(C) obtained an EnCase forensic image (.E01) of the aforementioned Macintosh HDD. The resulting forensic image was verified to be an exact, bit-for-bit copy of the HDD through a comparison of SHA1 values with no errors:

Acquisition Hash SHA1: 3cf107db8b3865a5e3ebfce400bae1da9691fb49
Verification Hash SHA1: 3cf107db8b3865a5e3ebfce400bae1da9691fb49

Between 1420 and 1620, 1 Jun 10, SA (b)(6)(b)(7)(C) conducted a preliminary forensic examination of this forensic image, and determined it was formatted with the Hierarchical File System (HFS), had Mac OS installed, and had a user account resembling PFC MANNING's name. A review of device logs contained on the HDD determined some form of optical disc activity occurred (e.g., wiping or burning) on or around 27 Apr 10. A review of the `User` files associated with the user account suspected to pertain to PFC MANNING located several files containing text that was specifically referenced in the chat logs received by U.S. Army CID (USACIDC) during the initial phases of this investigation. A review of installed programs, determined a chat client was installed. A review of other partitions on the HDD revealed a separate partition named "images," which contained file named `strongbox.dmg`, which was approximately 6 GB in size, password protected, and possibly encrypted.

About 0410, 31 May 10, SA (b)(6)(b)(7)(C) unsealed a Dell brand, laptop computer, serial number 93H4QD1, property of HHC, 2nd BCT, collected as evidence on EPCD, DN 0593-10, and verified the item with no documentary errors noted. This was determined to be the Non-classified Internet Protocol Router Network (NIPRNET) laptop computer, which had been located near the work area of PFC MANNING. The laptop was checked for any data bearing devices or media, but none were found. It was noted that the BIOS reflected the correct time and date (GMT +3). The HDD, unknown brand, serial number 5MH0TB78, 100 GB in size, was removed from the Dell laptop for forensic imaging.

About 0510, 31 May 10, SA (b)(6)(b)(7)(C) collected the aforementioned unknown brand HDD as evidence on EPCD, DN 0584-10.

Between approximately 0515 and 0840, 31 May 10, SA (b)(6)(b)(7)(C) obtained an EnCase forensic image (.E01) of the aforementioned unknown brand HDD. The resulting forensic image

Between 1800, 1 Jun 10, and 1000, 2 Jun 10, SA (b)(6)(b)(7)(C) conducted a preliminary forensic examination of this forensic image, which revealed PFC MANNING had a user account on this laptop. Analysis also determined b(1) was located on this machine, as well as what appeared to be a similar production video released by the WikiLeaks Team. A review of PFC MANING's stored email revealed he notified someone in his chain of command that the aforementioned classified SECRET video was on the Internet and of his (PFC MANNING's) belief that it was the same video from the FOB Hammer SIPRNET data server. Further analysis revealed multiple artifacts indicating browsing from PFC MANNING's user account to the Brigade Legal Team's share on the FOB Hammer data server, as well as the possible downloading of legal documents unrelated to the PFC MANNING. A review of PFC MANNING's `My Documents` folders revealed a file that appeared to be instructions to a web download program used to reach out to a SIPRNET site and download large amounts of specific documents of a sensitive and classified nature. This `My Documents` folder review further revealed an archive file that contained approximately 11,000 sensitive and classified documents, downloaded in Hyper Text Markup Language (HTML) format, likely from a SIPRNET site. This archive file further contained a file that appeared also to be instructions or log results for a web download program.

These photographs were of unclassified documents (e.g., what appeared to be an Article 15 involving PFC MANNING, of a promotion ceremony, of PFC MANNING himself, of an unidentified Caucasian male, and of several unidentified locations).

About 2110, 31 May 10, SA (b)(6)(b)(7)(C) unsealed a multi-disc case containing three Arabic language Compact Discs (CD)s, property of PFC MANNING, and one CD-RW, serial number LD623 MJ04184038 B16, recovered from the quarters of PFC MANNING, all collected as evidence on EPCD, DN 0579-10, and verified the item with no documentary errors noted.

About 2120, 31 May 10, SA (b)(6)(b)(7)(C) used Helix 3 Pro Live Disc to determine the three language discs contained only audio files, consistent with the manufacturer's markings.

About 2230, 31 May 10, SA (b)(6)(b)(7)(C) unsealed a Dell brand, laptop computer, serial number JP-0F5126-42016-76D-0517, property of HHC, 2nd BCT, collected as evidence on EPCD, DN 0594-10, and verified the item with no documentary errors noted. This was determined to be the second of the two SIPRNET laptop computers assigned to PFC MANNING. The Dell laptop was checked for any data bearing devices or media, but none were found. It was noted that the BIOS reflected the correct time and date (GMT +1), with DST in effect equaling GMT +2. The HDD, unknown brand, serial number 5MH0HWKN, was removed from this device for forensic imaging.

About 2330, 31 May 10, SA (b)(6)(b)(7)(C) collected the aforementioned unknown brand HDD, unknown brand, serial number 5MH0HWKN, as evidence on EPCD, DN 0577-10.

About 0940, 1 Jun 10, SA (b)(6)(b)(7)(C) unsealed a Toshiba brand, laptop computer, serial number Z5FX1 [redacted] 6P2 EC A, property of HHC, 2nd BCT, collected as evidence on EPCD, DN 0582-10, and verified the item with no documentary errors noted. This was determined to be the SIPRNET computer of SPC (b)(6)(b)(7)(C) HHC, 2nd BCT, who reported that she was asked by PFC MANNING on more than one occasion in May 2010 to receive digitally scanned documents via email and print them on his behalf. PFC MANNING then allegedly asked SPC (b)(6)(b)(7)(C) to delete the emails from her MS Outlook Inbox.

Between approximately 0320 and 0520, 1 Jun 10, SA (b)(6)(b)(7)(C) obtained an EnCase forensic image (.E01) of the HDD within the aforementioned Toshiba laptop. The resulting forensic image was verified to be an exact, bit-for-bit copy of the HDD through a comparison of SHA1 values with no errors:

Acquisition Hash SHA1: 6a9b4e366790fb9f02b88a9ba29c3f3fbe610300

About 0900, 2 Jun 10, SA (b)(6)(b)(7)(C) coordinated this investigation with CPT (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) Brigade Automation Officer, 2nd BCT, who was asked to describe the storage area network (SAN) on the SIPR local area network (LAN) at FOB Hammer. CPT (b)(6)(b)(7)(C) related the SAN was large, over 10 terabytes (TB) in size, and was essentially handed down from one deployed BCT to another. CPT (b)(6)(b)(7)(C) was asked to describe the current security settings for the Brigade Legal Team's data share at FOB Hammer. CPT (b)(6)(b)(7)(C) advised they were currently set to restricted; however, this setting had only been changed between 27 Apr 10 and 20 May 10. Prior to this time frame, the aforementioned data share had unrestricted settings. When asked about b(1) b(1) CPT (b)(6)(b)(7)(C) related that the video could be found in three locations on the FOB Hammer SIPR SAN. Copies were located on the aforementioned Brigade Legal Team's data share, the 431st Infantry LNO's data share, the 382nd Archived Training Material data share. CPT (b)(6)(b)(7)(C) related none of these copies of the video in question appeared to be related to an investigation or the response to a Freedom of Information Act (FOIA) request.

About 1130, 4 Jun 10, SA (b)(6)(b)(7)(C) coordinated this investigation with MAJ (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) Commander, Brigade Legal Team, 2nd BCT, 10th Mountain, who was briefed on the status of this investigation as it pertained to this office's desire to preserve and collect a copy of his unit's data share at FOB Hammer. MAJ (b)(6)(b)(7)(C) confirmed that no Trial Defense Service (TDS) unit was using or had used the aforementioned data share. SA (b)(6)(b)(7)(C) subsequently forwarded MAJ (b)(6)(b)(7)(C) the Preservation Request Notification titled "Request to Preserve SJA Shared Directory," drafted by Ms. (b)(6)(b)(7)(C) Chief Legal Counsel, CCIU, and dated 4 Jun 10.

About 1200, 4 Jun 10, SA (b)(6)(b)(7)(C) coordinated this investigation with CPT (b)(6)(b)(7)(C) S-2, 2nd BCT, and CPT (b)(6)(b)(7)(C) Commander, HHC, 2nd BCT, who were briefed on the status of this investigation as it pertained to this office's desire to preserve and collect a copy of PFC MANNING's data share at FOB Hammer. SA (b)(6)(b)(7)(C) subsequently forwarded both individuals the Preservation Request Notification titled "Request to Preserve Individual Shared Directory of Bradley E. Manning," drafted by Ms. (b)(6)(b)(7)(C) and dated 4 Jun 10.

About 1600, 5 Jun 10, SA (b)(6)(b)(7)(C), collected as evidence one Seagate brand, HDD, serial number 9VS25G5M, containing the unclassified forensic images of the following devices which had been previously transferred to the HDD for consolidation and evidence retention, on EPCD, DN 0585-10:

CPT (b)(6)(b)(7)(C) related the S-2 section did have NSANet computers; however, PFC MANNING did not have an account and was not authorized to use them. CPT (b)(6)(b)(7)(C) clarified that the NSANet belonged to the Signals Intelligence section, and was outside the scope of PFC MANNING's duties. CPT (b)(6)(b)(7)(C) stated there was a two person rule, which would have had to have been violated in order for PFC MANNING to have had access. CPT (b)(6)(b)(7)(C) further stated when she returned from leave, on or about 22 Apr 10, she asked the personnel in her section if they had seen the Apache video played on the news. PFC MANNING told her he believed it was the same video they had on the shared drive and later proved it to her by sending her a link to it. CPT (b)(6)(b)(7)(C) stated the video was in four places on the shared drive that included a training folder pertaining to "Positive Identification," which contained the Apache video and another [unspecified] video. CPT (b)(6)(b)(7)(C) related any Soldier was permitted access to the training folder, though it was unlikely PFC MANNING would have known to look there. According to CPT (b)(6)(b)(7)(C) PFC MANNING should not have been accessing the SJA folder.

FILE NUMBER : 0028-10-CID221-10117
LOCATION : Fort Belvoir, VA 22060
DATE : 13 Jun 2010 TIME: 2120
NAME : Mr (b)(6)(b)(7)(C)
SSAN : (b)(6)(b)(7)(C) Grade/Status: Civilian
ORG/ADDRESS : (b)(6)(b)(7)(C)

(b)(6)(b)(7)(C) WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

About 2031 (UTC), 20 May 10, Bradley E. Manning, contacted me via e-mail from the account bradley.e.manning@gmail.com, sending an encrypted e-mail to my account, (b)(6)(b)(7)(C) I was not able to read Mr. Manning's e-mail because I was no longer utilizing the public PGP key that he utilized to encrypt the e-mail. I believed he recovered my public PGP encryption key from the key server at pgp.mit.edu (searchable as (b)(6)(b)(7)(C) I responded to Mr. Manning relating that I was no longer utilizing the PGP key he used, and requesting that we initiate communication via AOL Instant Messenger (AIM), at my account, user name, (b)(6)(b)(7)(C) and via Facebook, through my account, user name, (b)(6)(b)(7)(C) which is linked to my account (b)(6)(b)(7)(C) Between 20 May 10 and 21 May 10, Mr. Manning and I subsequently exchanged about eight e-mails, seven of which were encrypted; however, one e-mail was unencrypted, and originated form the account bradley.e.manning@gmail.com, which simply related an affirmative reply of acknowledgment to my aforementioned request for AIM or Facebook communication. Additionally, one e-mail, although encrypted, originated form bradley.manning@2bct10mtn.army.mil.

Subsequently, Mr. Manning utilized AIM (Chat ID (b)(6)(b)(7)(C) to contact me, and he utilized Off the Record (OTR), an automated encryption service, to encrypt all of his AIM communications to me. We subsequently chatted utilizing AIM on or about the following dates: 20 May 10, 21 May 10, 22 May 10, 23 May 10, 24 May 10, 25 May 10, and 26 May 10. During Mr. Manning's chats, he identified himself as the person who contacted me via email and related he worked with the U.S. Army at 2bct 10mtn at FOB Hammer as a 35F intelligence analyst. Additionally, Mr. Manning provided me with his Army Knowledge Online username and password. Mr. Manning subsequently utilized Facebook to send me a Facebook friend request from his account utilizing the account bradley.e.manning@gmail.com. I accepted Mr. Manning's friend request and we associated our Facebook accounts, an association which continues to present day.

During AIM chats Mr. Manning revealed he utilized his ongoing U.S. Army access to classified information to obtain and disclose U.S. Army and other U.S. government classified information to Wikileaks. Mr. Manning also related he had a close and ongoing relationship with Mr. Julian Assange, the organizer of Wikileaks, who had offered him a position with Wikileaks that he had turned down, but nevertheless continued to obtain and disclose classified information to Wikileaks. Additionally, Mr. Manning related he had disclosed the following classified information to Mr. Assange and Wikileaks: "collateral murder video", a classified 2007 video of an U.S. Army Apache helicopter attack in Iraq; the classified U.S. State Department Icelandic

[redacted]e; a classified video of a U.S. Army attack in Afghanistan; and roughly 260,000 classified State Department cables.

About 1100, 14 Jun 10, SA (b)(6)(b)(7)(C) coordinated with CPT [redacted] who provided the Search and Seizure Authorization for the forensic examination of the all items seized by this office 27-28 May 10, during the course of the investigation; using specific verbiage to clarify the search of all items for information in whatever form it was found i.e. written, electrical, electronic, optical or magnetic. CPT [redacted] also provided the Search and Seizure Authorization for the Unit's share drive network logs assigned to PFC MANNING and the OSJA Directory.

About 1930, 16 Jun 10, SA (b)(6)(b)(7)(C) coordinated with CPT [redacted] who stated 2/10th MTN DIV, FOB Hammer, never had any Joint Worldwide Intelligence Communications System (JWICS) terminals in their SCIF. He related the unit never set up the Trojan Spirit; therefore, they never had JWICS access during the entire deployment. CPT [redacted] stated the unit did have access to the National Security Agency (NSA) network. The NSA terminal was owned by the Cryptological Support Group (CSG) from NSA. CPT [redacted] further related there were a few CSG members attached to the unit; only those CSG and a few Signals Intelligence (SIGINT) Soldiers had user names and passwords. CPT [redacted] stated the NSA net was extremely secure. The area was always manned by at least two people at all times. CPT [redacted] ensured at no point did PFC MANNING ever have access to the NSA net; in fact, no one was authorized to look at those screens except the CSG and SIGINT operators. CPT [redacted] also related the unit did not run an organic Prophet Spiral System either. They used the TPE Prophet Hammer system which was maintained in a different accredited SCIF on FOB Hammer, which PFC MANNING did not have access to. CPT [redacted] stated it was manned by the SIGINT operators assigned to the Military Intelligence Company. They were not actually assigned to HHC, 2/10th MTN DIV, but were attached as operational Control (OPCON) under his section (S2) for the deployment; they were actually assigned to B Company, 2nd Brigade Special Troops Battalion. CPT [redacted] further related PFC MANNING never had access to Top Secret material.

CPT [redacted] identified the Soldiers who operated the TPE Prophet System and the NSA Network:

SGT (b)(6)(b)(7)(C) related SSG (b)(6)(b)(7)(C) NCOIC, Post Office, FOB Hammer, took over the Post Office in the beginning of May 10, because of problems with the previous unit. SGT (b)(6)(b)(7)(C) related all insured, certified, and delivery confirmation slips would be attached to the customs forms: the originals would be maintained with the package, a copy would be maintained at the post office (for the required 30 days), and a copy goes to the customer. SGT (b)(6)(b)(7)(C) stated once the packages left the mailroom to begin their journal through the postal system to their final destination the bar codes would not be scanned again until they hit a stateside hub; most likely NY. At that time the tracking system would pick up again; however, there would be no way for the local post office to track the package, unless they still had the copies of the forms that included the barcodes.

AFFIDAVIT SUPPORTING REQUEST FOR AUTHORIZATION TO SEARCH AND SEIZE OR APPREHEND

For use of this form, see AR 27-10; the proponent agency is OTJAG.

BEFORE COMPLETING THIS FORM, SEE INSTRUCTIONS ON PAGE 2

1. I, Special Agen (b)(6)(b)(7)(C) (*Name*), 11th Military Police Battalion (CID), Central (*Organization or Address*)

Bagdad CID Office, Camp Liberty APO AE 09342

having been duly sworn, on oath depose and state that:

I hereby incorporate the information in the sworn Affidavits related to PFC Bradley E. Manning, 2nd Brigate Combat Team, 10th Mountain Division, FOB HAMMER, Iraq, provided to CPT (b)(6)(b)(7)(C) Military Magistrate, Office of the Staff Judge Advocate Office, Bagdad, Iraq at 1400 hours on 27 May 2010, 1550 hours on 28 May 2010 and 1300 hours on 5 Jun 2010.

I have been informed by SA (b)(6)(b)(7)(C) Special Agent in Charge (SAC), CCIU-Europe that SA (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) forensic examination of PFC Manning's two assigned SIPRNet computers and his personal Apple computer disclosed that Manning created "links of interest" using his primary SIPRNet computer to a file called "dump2.csv.zip" which was stored in Manning's shared directory on the FOB HAMMER SIPRNet LAN ("tdrive"). He also viewed the "dump2.csv.zip" file using his secondary SIPRNet computer and the "dump2.csv.zip" file was found on his personal Apple computer. The contents of the "dump2.csv.zip" file have not been found on any of these three computers but may still be available in Manning's shared directory, which was preserved by CPT (b)(6)(b)(7)(C) the system administrator for the FOB HAMMER SIPRNet LAN at CCIU's request. SA (b)(6)(b)(7)(C) is the SAC, Digital Forensics and Research Branch, CCIU.

2. The affiant further states that:

The forensic examinations also disclosed that PFC Manning viewed numerous files on the OSJA shared drive on the FOB HAMMER SIPRNet LAN, including information related to Article 15 actions taken against other soldiers. The OSJA shared drive was also preserved by CPT (b)(6)(b)(7)(C) after notice was provided to the SJA. Examination of these files will help define the extent of PFC Manning's unauthorized access.

I therefore request authority to seize and subsequently search the shared directories assigned to PFC Manning and the OSJA for information related to the offenses set out in my Affidavit of 5 Jun 10: Article 106a, Espionage; 18 USC 703, Gathering, transmitting or losing defense information; 18 USC 798, Disclosure of classified information; and 18 USC 1030, Fraud and related activity in connection with computers.

3. In view of the foregoing, the affiant requests that an authorization be issued for a search of FOB HAMMER system
(the person) (and)

administrator area for FOB shared directories assigned to PFC Manning and the OSJA which have been preserved
(the quarters or billets) (and)

(the automobile) ( ) and (seizure) (apprehension) of to subsequently search for information

BASIS FOR INVESTIGATION: About 1600, 17 Jun 10, this office received a Category 1 Request for Assistance (RFA) from the Washington Metro Resident Agency, Computer Crimes Investigative Unit (CCIU), Fort Belvoir, VA, requesting canvass interviews of Headquarters and Headquarters Company (HHC), 2nd Brigade Combat Team (BCT), Fort Drum, NY 13602 (FDNY), rear-detachment personnel who had contact with PFC Bradley E. MANNING, (b)(6)(b)(7)(C) HHC, 2nd BCT, Forward, prior to his deployment. Additionally, CCIU requested this office determine if PFC MANNING had a Joint Worldwide Intelligence Computer System (JWICS) account at FDNY, coordinate with the Directorate of Information Management (DOIM) to preserve any local e-mail accounts, and obtain a printout of the "To/From" e-mail addresses, and obtain a copy of PFC MANNING's local personnel file.

About 1700, 17 Jun 10, SA (b)(6)(b)(7)(C) coordinated with SSG (b)(6)(b)(7)(C), Rear-Detachment S-2 NCOIC, HHC, 2nd BCT, FDNY, who stated he was not aware of any personnel assigned to HHC having a JWICS account while stationed at FDNY. Additionally, SSG (b)(6)(b)(7)(C) provided a copy of PFC MANNING's personnel file maintained at the brigade S-1, which contained a DA Form 31, DD Form 4/1 and 4/2, SGLI, DD Form 93, and orders assigning him to FDNY. SSG (b)(6)(b)(7)(C) stated PFC MANNING was a strange guy, but did not have any additional information about him.

About 0830, 18 Jun 10, SA (b)(6)(b)(7)(C) coordinated with Mrs. (b)(6)(b)(7)(C) Exchange Administrator, Net Communication Enterprise (NEC), FDNY, who verified PFC MANNING had an inactive Microsoft Outlook account at FDNY. Mrs. (b)(6)(b)(7)(C) reviewed the "To/From" e-mail addresses and stated the majority of them are the post wide e-mails or the System Administrator ones. She identified several e-mail addresses she was not familiar with.

About 0900, 21 Jun 10, SA (b)(6)(b)(7)(C) received the e-mail address list pertaining PFC MANNING's Fort Drum Outlook account, (b)(6)(b)(7)(C) There was one e-mail address identified in the "Sent" folder and 23 addresses identified in the "In" box.

About 1030, SA (b)(6)(b)(7)(C) and SA (b)(6)(b)(7)(C) this office, interviewed SSG (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) S-2, HCC, 2nd BCT, FDNY, who stated he was deployed with PFC MANNING; however, he re-deployed prior to the incident. SSG (b)(6)(b)(7)(C) stated PFC MANNING was a basic analyst who focused on Shia threat groups while deployed. PFC MANNING was a self proclaimed computer guru whose interests were primarily in computer code and programming. SSG (b)(6)(b)(7)(C) did not have much interaction with PFC MANNING as they worked different shifts. Further, SSG (b)(6)(b)(7)(C) stated PFC MANNING was mentally unstable, and would pull a "Jekel and Hyde" act if someone said the wrong thing to him. SSG (b)(6)(b)(7)(C) was aware of two occasions when PFC MANNING had done this: the first was when he was being counseled he flipped over a table and tried to fight a NCO; the second was when he was trying to talk with a female Soldier, and when she told him to leave her alone, he struck her several times. PFC MANNING was being treated for

Examination and Contents:

On 14 June 10, SA (b)(6)(b)(7)(C), (b) (7)(E) Digital Forensics and Research Branch, CCIU, conducted a preliminary examination of a Samsung SGH-T229 cellular phone, recorded on DA Form 4137, Document Number (DN) 067-10. All times shown in this report are in relation to UTC/GMT unless otherwise noted.

SA (b)(6)(b)(7)(C) used a Cellebrite Universal Forensic Extraction Device (UFED) to obtain text messages from the SIM card. SA (b)(6)(b)(7)(C) attempted to power the cellular phone with the battery provided and with the UFED, both with no success.

Cell Phone:	Samsung SGH-T229
Serial number:	RPRS303202D
SIM	8901260520008043773

The text messages from the SIM card are provided below.

SA (b)(6)(b)(7)(C) imported the files created by the UFED into EnCase version 6.16 and created a Logical Evidence File (LEF). The LEF was written to Compact Disc – Recordable (CD-R). About 1500, 14 June 2010, SA (b)(6)(b)(7)(C) collected the CD-R as evidence, which was documented on a DA Form 4137, DN 075-10.

Between 14-16 Jun 10, SA (b)(6)(b)(7)(C), (b) (7)(E) Digital Forensics and Research Branch, CCIU, conducted a preliminary forensic examination of a Kodak EasyShare M380 digital camera and Sandisk memory card, taken as evidence on DA Form 4137, Evidence Property Custody Document (EPCD), Document Number (DN) 067-10, Item 7, and reported to belong to PFC MANNING.

FINDINGS:

Kodak EasyShare M380 Camera:

Examination of the camera's internal memory revealed it did not appear to contain any data pertinent to this investigation.

References to both "bradley.e.manning" and "breanna.e.manning" were found in numerous locations on the disk, including indications that someone accessed and managed those email account from the examined system.

References to "wikileaks" were found in numerous locations on the disk, primarily in the Internet history for the '(b)(6)(b)(7)(C) ' user. The "wikileaks" references in the active Internet history on the disk all appear in sites last accessed between 22 and 24 May 10. Many of the pertinent references to "wikileaks" appear to relate to searches for or the accessing of stories related to the '(b)(6)(b)(7)(C) video release", as well as searches for Wikileaks on Twitter and FriendFeed.com.

Examination of the `C\Users(b)(6)(b)(7)(C) \AppData\Roaming\Google\Local Search History\google%2Eweb.w` file revealed what appeared to be the content of the user's Google Web History file. Google Web History is an add-on function of a user's normal user account that allows the user to view and search across the full text of pages they have visited, including Google searches, web pages, images, and video and news stories. The contents of this `google%2web.w` file appear to relate to PFC MANNING's interests.

On 5th April 2010 10:44 EST WikiLeaks released this classified US military video, depicting the indiscriminate slaying of over a dozen people in the Iraqi suburb of New Baghdad – including two Reuters news staff.

Reuters has been trying to obtain the video through the Freedom of Information Act, without success since the time of the attack. The video, shot from an Apache helicopter gun-sight, clear shows the unprovoked slaying of a wounded Reuters employee and his rescuers. Two young children that innocently got involved in an attempt to rescue the wounded, were also seriously wounded.

The military did not reveal how the Reuters staff were killed, and stated that they did not know how the children were injured.

The video has possibly been available on the internet for a short period in 2009, as investigated by New York Times Reporter[1], yet never surfaced to the attention of the mainstream mad or the general public.

After demands by Reuters, the incident was investigated and the U.S. military concluded that the actions of the soldiers were in accordance with the law of armed conflict and its own "Rule of Engagement".

Consequently, WikiLeaks has released the classified Rules of Engagement for 2006, 2007 and 2008, revealing these rules before, during, and after the killings.

WikiLeaks has released both the original 38 minutes video as well as a shorter version of the footage with an initial analysis. See http://www.collateralmurder.com for the release of the documentary and additional footage. Subtitles have been added to both versions from the radio transmissions.

WikiLeaks obtained this video as well as supporting documents from a number of military whistleblowers. WikiLeaks goes to great lengths to verify the authenticity of the information it receives. We have analyzed the information about this incident from a variety of source material. We have spoken to witnesses and journalists directly involved in the incident.

WikiLeaks wants to ensure that all the leaked information it receives gets the attention it deserves. In this particular case, some of the people killed were journalists that were simply doing their jobs: putting their lives at risk in order to report on war. Iraq is a very dangerous place for journalists: from 2003 to 2009, 139 journalists were killed while doing their work.

The collected folders/files from each website were imported into EnCase v6.16.2 and a logical evidence file was created. The original files from the collected folders were hashed using the message digest-5 (MD5) algorithm (i.e., hash), and the resulting values compared to those of the files within the logical evidence file. The hash values matched.

The logical evidence file was recorded to a Digital Versatile Disc – Recordable (DVD-R).

About 1200, 18 June 10, SA (b)(6)(b)(7)(C) collected the DVD-R as evidence on a DA Form 4137, Evidence Property Custody Document (EPCD), Document Number (DN) 084-10.

About 1249, 12 Jul 10, SA (b)(6)(b)(7)(C), SA (b)(6)(b)(7)(C) U.S. Department of State – Diplomatic Security Service, 1801 N. Lynn Street, Arlington, VA 22209; SA (b)(6)(b)(7)(C) National Capital Region Military Intelligence Detachment, 902nd Military Intelligence Group, 9805 Lowen Road, Fort Belvoir, VA 22060; and SA (b)(6)(b)(7)(C) National Security Agency (NSA), 9800 Savage Road, Fort Meade, MD 20755, interviewed Ms. (b)(6)(b)(7)(C) GS-14, National Security Agency/Central Security Service Representative (NCR) - Iraq Staff, Camp Victory, Iraq, APO AE 09342, as she was identified as an NSA employee who previously worked with PFC MANNING while assigned to the S-2 Section of the 2nd Brigade Combat Team (BCT), 10th Mountain Division, Forward Operating Base (FOB) Hammer, Iraq. Ms. (b)(6)(b)(7)(C) explained how she met PFC MANNING, her interactions with him, and the general conditions under which PFC MANNING worked under while in Iraq. Ms. (b)(6)(b)(7)(C) related she was assigned as an NSA liaison with the 3rd BCT of the 82nd Airborne Division at Joint Security Station (JSS) Loyalty, Iraq, beginning in July 2009; but due to the draw-down/movement of American forces within Iraq, she was later reassigned to FOB Hammer. Ms. (b)(6)(b)(7)(C) explained around November of 2009, the 2nd BCT, 10th Mountain Division rotated into FOB Hammer and replaced the 3rd BCT, 82nd Airborne Division, which is when she first met PFC MANNING. Ms. (b)(6)(b)(7)(C) said PFC MANNING was working in the area of All-Source Analysis and that she would have to walk past him and/or his area within the facility they worked in, in order to reach her own work area. Ms (b)(6)(b)(7)(C) said she remembered PFC MANNING primarily worked the night shift, which was a 12-hour shift beginning at 2200 and ending at 1000 the following morning. Ms. (b)(6)(b)(7)(C) explained she would generally see PFC MANNING during the hand-over meetings held twice daily; wherein the out-going shift personnel would brief the on-coming shift personnel of progress made on operations, indicators, and other intelligence related matters the unit was responsible for. Ms. (b)(6)(b)(7)(C) described PFC MANNING as immature but also as bright and intelligent. Ms. (b)(6)(b)(7)(C) mentioned at the hand-over briefings she noticed PFC MANNING appeared to have trouble speaking in front of others and would get choked up; often due to what she described as vicious verbal comments and gestures from other unit members. Ms. (b)(6)(b)(7)(C) specifically related MSG (b)(6)(b)(7)(C) Noncommissioned Officer in Charge (NCOIC) of the S-2 Section, as one of the main personnel who seemed to be the leader of these attacks which occurred while PFC MANNING was attempting to brief his projects in front of the group. Ms. (b)(6)(b)(7)(C) described the culture of the S-2 Section under which the soldiers worked as unsupportive and compared this atmosphere as being like sharks. Ms. (b)(6)(b)(7)(C) said she had talked to PFC MANNING on a couple of occasions in order to give him some encouragement from all of the personnel who would make fun at his expense during the briefings. Ms. (b)(6)(b)(7)(C) explained she made comments to personnel in the Signals Intelligence (SIGINT) Section about the poor working environment created by the other soldiers, but noticed this appeared to be the same atmosphere when the previous unit, the 3rd BCT, 82nd Airborne Division was there - so she did not pursue the matter. Ms. (b)(6)(b)(7)(C) stated she felt she should have possibly done or said more; however, stated there still wasn't any excuse for what PFC MANNING is alleged to have done. Ms. (b)(6)(b)(7)(C) stated PFC MANNING's access should have been limited to the Secure Internet Protocol Router (SIPR) and Non-secure Internet Protocol Router (NIPR) networks, as Ms. (b)(6)(b)(7)(C) noted FOB Hammer did not have any Joint Worldwide Intelligence Communications System (JWICS) access during the time she was assigned there. Ms. (b)(6)(b)(7)(C) further explained FOB Hammer did have NSA Network (NSANet) access. Ms. (b)(6)(b)(7)(C)

explained NSANet is a system different, but similar to, the level of access provided by JWICS; and it is possible to connect to JWICS using NSANet. Ms. (b)(6)(b)(7)(C) related NSANet was limited to the work area which she worked in, and that this area was somewhat controlled by personnel working in her section. Ms. (b)(6)(b)(7)(C) stated if someone who was not assigned to this area entered it, they would likely be challenged by personnel from the SIGINT Section until it was determined they were clear to be in this area. Ms. (b)(6)(b)(7)(C) admitted that PFC MANNING would not likely have been challenged if he was in this area for a short period of time, as it was his job to interact with personnel from the SIGINT section due to his projects. Ms. (b)(6)(b)(7)(C) stated as far as she knew, PFC MANNING should not have had access to NSANet while he was assigned to Iraq. Ms. (b)(6)(b)(7)(C) mentioned that because people often don't know what NSA does, it would not be uncommon for personnel like herself to take time to answer questions and/or educate others about NSA systems. Ms. (b)(6)(b)(7)(C) related PFC MANNING would ask questions of the SIGINT Analysts, but didn't appear to have any overt agenda behind the questions he asked. Ms. (b)(6)(b)(7)(C) said PFC MANNING asked a lot of questions initially, but appeared to stop asking as many questions due to the unit dynamics she mentioned earlier. Ms. (b)(6)(b)(7)(C) when questioned about other personnel PFC MANNING may have been friends with, explained there was another male soldier who she said appeared to have emotional issues and who was assigned to the SIGINT Platoon. Ms. (b)(6)(b)(7)(C) said she remembered this soldier, who she could not immediately recall the name of, having arrived late to Iraq due to being stuck in Kuwait after reportedly testing positive for the H1N1Virus. Ms. (b)(6)(b)(7)(C) said this other soldier, who she believed was a Specialist (Pay Grade E-4), was also very intelligent and into computers. Ms. (b)(6)(b)(7)(C) said she did not believe FOB Hammer had certain capabilities related to cellular phone systems as discussed by PFC MANNING in his Internet chats, based on the remote location of FOB Hammer and lack of need for this capability. Ms. (b)(6)(b)(7)(C) said she had no knowledge of any penetration testing being conducted by any military personnel on any computer networks while at FOB Hammer, and was not aware of the website WikiLeaks.org until this investigation of PFC MANNING was made public. Ms. (b)(6)(b)(7)(C) related she did not have any contact with PFC MANNING while outside of her work environment, but did identify several other personnel who may have worked with PFC MANNING more closely. Ms. (b)(6)(b)(7)(C) identified these personnel as: Senior Airman (SrA) (b)(6)(b)(7)(C) whom she believed may have already ETS'ed; SrA (b)(6)(b)(7)(C) (b)(6)(b)(7)(C) who was in the SIGINT Section and also worked the night shift; U.S. Air Force Senior Master Sergeant (SMSgt) (b)(6)(b)(7)(C) who was the Cryptological Support Team 5 (CST5) NCOIC and also spent time on the night shift; and WO1 (b)(6)(b)(7)(C), who appeared to have knowledge of the physical altercation incident between PFC MANNING and SPC (b)(6)(b)(7)(C) Ms. (b)(6)(b)(7)(C) related that she left FOB Hammer in January 2010, and had not interacted with PFC MANNING after her departure.

AGENTS COMMENT: The soldier Ms. (b)(6)(b)(7)(C) identified as having arrived to Iraq later than the rest of his unit after being delayed in Kuwait, is believed to be SPC (b)(6)(b)(7)(C) Ms. (b)(6)(b)(7)(C) identified that in approximately 4 months, she would be redeploying and would be returning to her position at NSA.
